

Section 1 - Policy Statement

Nobles Construction Ltd operates an Integrated Management System, which has been developed in accordance with the requirements of ISO 9001, 14001 and 45001. We are committed to a continual improvement programme in respect to Quality, Safety, Health and Environmental performance within our scope of business activities. To achieve these commitments

Health & Safety

- We will comply with all applicable legal requirement, other H&S requirements to which the business subscribes and a commitment to ensure that the prevention of accidents, injury, ill health and pollution is an integral part of our working practices
- We will commit to setting and maintaining high operational safety standards to ensure the provision of a safe and healthy working environment for all of our employees and of others (e.g. sub-contract staff and the general public) who may be affected by our business operations.
- We will provide employees with safe places of work, plant, equipment and substances etc that are without risk to health when properly used. We will provide a suitable forum for consultation which allows, and encourages, our employees to discuss health and safety matters with senior management.
- We will provide a framework for setting H&S objectives and commit to consultation with all staff.

Environment

- We the Directors of Nobles Construction Limited will adopt as principles the prevention of pollution, reduction of waste and the efficient use of materials and energy. We will Monitor/ review Waste at Regular Intervals.
- We are committed to whole life carbon management in all are activities.
- We will take environmental factors into account when making decisions on investments such as buildings, plant, machinery, equipment, goods and services.
- We will strive to improve the energy efficiency of our buildings and facilities and reduce the amount of water used in our premises by adopting water conservation measures.
- We will minimise waste, especially hazardous waste and whenever possible recycle materials; we will dispose of all waste we produce through safe and responsible methods.

Quality

- We the Directors of Nobles Construction Limited aim to develop total customer satisfaction by way of consistently high quality and expertise.
- We will continually work to improve our organisation, service and procedures and in turn this will establish a confidence level and relationship with our customers which will help to build a strong future.
- Ensure that documented procedures are maintained, monitored and whenever possible, improved upon to provide a service which conforms to the specified requirements of each of our clients.
- Ensure that management and staff are fully conversant with the company objectives through an on-going programme of training and awareness for personnel at all levels within the company.
